

Alebo Hotel is a cultural relic typical for the time it was built - a "hydro" from 1897, traditionally made of wood. It was established at the health spring which has been known since the 16th century. The hotel was in the first years solely functioning as a health resort and bath. The drinking of spring water was combined with various health baths - all under medical supervision. Today the well is still running and our guests can freely enjoy the mineral water.

The hotel has accommodations for 14 guests in the main building but also 19 beds in annexes. The annex by the lake has sauna and is built in plain, countrified woodsman style. Here we have our little beach and the boats. The lake is 10 miles long. Alebo has its own forest at your disposal. Here you may meet a moose!

All of the rooms in the main building are large and bright equipped with shower, toilet and TV. In the common lounge you find TV (satellite and DVD), open fireplace and exit to the balcony with a fantastic view over the lake Unnen. All the rooms in our annex have own bathroom and just a few steps to the lakeshore. Everywhere in our facility you can use our 24 MB/s wireless broadband for free.

The restaurant can serve parties up till 50 persons. We also have a café/bar with a fireplace. A small conference room for 20 persons can be booked, and we have all the equipment you need including 24 MB/s wireless broadband.

Food and drinks are an essential part of a perfect holiday. The restaurant serves exiting and varied dishes according to the offers of the season's raw materials. The kitchen is a mixture of Danish, Swedish and French cooking with attached importance to natural products of forest field and lake e.g. moose and fish. We make it a point of honour that our guests are full when leaving the table, so that they are well prepared for the meeting with the fresh air from the forest and the beautiful nature. As regards to groups we are willing to arrange the menu with the organizer in order to maintain a good and high service standard. The hotel has license to serve alcohol and our price policy makes it possible to have beer, good wine etc. with your food or by the fireplace. We also have service in the garden.

Alebo Pension is situated in Halland (landscape Småland) immediate by the 15 km long lake Unnen. Here is everything from the whistling spruce forest,

clear birch groves and waste rocky islands to preserved bird sanctuaries and roaring brooks in a geologically exiting landscape.

Unnaryd is an old cultural village with a rich and exciting farming culture and a lively craftsman tradition. Unnaryd can offer handicraft (hemslöjd) and the finest museum in Sweden showing the unique "bonads" paintings. Within a modest distance you will find the Chalander Museum (cabinet making and clocks) in Jälluntofta, "Friesminnet" (museum for mushrooms) in Femsjö and "Brunnsbacka Sågkvarn", and old combined water mill and saw mill.
